***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by MaWhinney.

See the appropriate paragraph of paper 15.

***Response to Arguments***

Applicant's arguments filed 9/15/03 have been fully considered but they are not persuasive.

Applicants state MaWhinney does not teach a system where there is relative movement of the slide housings and the liquid dispensers. Applicants acknowledge MaWhinney teaches two 450mm diameter carousels which are rotated depending upon the desired reagent, but maintain the liquid dispensing means is fixed relative to the slide. The instant claim language does not reflect these remarks. The claim language specify a "liquid dispenser" and does not specify the liquid dispenser is in contact with the slide. The claimed liquid dispenser has been broadly read on any liquid dispenser that is responsible for supplying fluids to the slide and has been fairly read on the means that dispenses/controls the fluids from the carousel.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1743

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
